**Medication Therapy Management Program**

The IMCare Classic (HMO SNP) Medication Therapy Management Program (MTM Program) helps you get the greatest health benefit from your medications by:

- Preventing or reducing drug-related risks
- Increasing your awareness
- Supporting good habits

**Who qualifies for the program?**

We will automatically enroll you in the IMCare Classic (HMO SNP) Medication Therapy Management program at no cost to you if all three conditions apply:

1. You take eight or more Medicare Part D covered maintenance drugs, and
2. You have three or more of these long-term health conditions:
  - Asthma
  - Chronic obstructive pulmonary disease
  - Diabetes
  - Depression
  - Osteoporosis
  - Chronic heart failure
  - Cardiovascular disorders such as high blood pressure, high cholesterol or coronary artery disease, and
3. You reach \$3,967 in yearly prescription drug costs paid by you and the plan.

Your participation is voluntary, and does not affect your coverage. This program is no cost to you and is open only to those who are invited to participate. The program is not a benefit for all members.

**What services are included in the program?**

The program provides you with a:

- Comprehensive medication review and a
- Targeted medication review

Comprehensive Medication Review

The review is a one-on-one discussion with a pharmacist, to answer questions and address concerns you have about the medications you take, including:

- Prescription drugs

- Over-the-counter (OTC) medicines
- Herbal therapies
- Dietary supplements and vitamins

The pharmacist will offer ways to manage your conditions with the drugs you take. If more information is needed, the pharmacist may contact your prescribing doctor. The review takes about 30 minutes and is usually offered once each year — if you qualify. At the end of your discussion, the pharmacist will provide you a *Personal Medication List* with the medications you discussed during your review.

You will also receive a *Medication Action Plan*. Your plan may include suggestions from the pharmacist for you and your doctor to discuss during your next doctor visit.

Here is a blank copy of the **Personal Medication List** for tracking your prescriptions.

### Targeted Medication Review

With this review, we mail, fax or call your doctor with suggestions about prescription drugs that may be safer, or work better than your current drugs. As always, your prescribing doctor will decide whether to consider our suggestions. Your prescription drugs will not change unless you and your doctor decide to change them. We may also contact you, by mail or phone, with suggestions about your medications.

### **How will I know if I qualify for the program?**

If you qualify, we will mail you a letter. Also, you may receive a call, inviting you to participate in this one-on-one medication review.

### **Who will contact me about the review?**

You may receive a call from a pharmacy where you recently filled one or more of your prescriptions. You will be given the option to choose an in-person review or a phone review.

You may be contacted by a call center pharmacist to provide your review, and ensure that you have access to the service if you want to participate. These reviews are conducted by phone.

### **Why is a review with a pharmacist important?**

Different doctors may write prescriptions for you without knowing all the prescription drugs and/or OTC medications you take. For that reason, a pharmacist will:

- Discuss how your prescription drugs and OTC medications may affect each other
- Identify any prescription drugs and OTC medications that may cause side effects and offer suggestions to help
- Help you get the most benefit from all of your prescription drugs and OTC medications
- Review opportunities to help you reduce your prescription drug costs

### **How do I benefit from talking with a pharmacist?**

- Discussing your medications can result in real peace of mind knowing that you are taking your prescription drugs and OTC medications safely
- The pharmacy can look for ways to help you save money on your out-of-pocket prescription drug costs
- You benefit by having a *Personal Medication List* and a *Medication Action Plan* to keep and share with your doctors and health care providers

**How can I get more information about the program?**

Please contact us if you would like additional information about our program, or if you do not want to participate after being enrolled in the program. Our toll free number 218-327-6188 (voice), or 1-800-843-9536, 24 hours a day, 7 days a week. TTY users call 1-800-627-3529 or 7-1-1, or through the Minnesota Relay.

**IMCare Classic (HMO SNP) is a health plan that contracts with both Medicare and the Minnesota Medical Assistance (Medicaid) program to provide benefits of both programs to enrollees. Enrollment in IMCare Classic (HMO SNP) depends on contract renewal**

**IHS and Tribal facilities/clinics:** American Indians can continue or begin to use tribal and Indian Health Services (IHS) clinics. We will not require prior approval or impose any conditions for you to get services at these clinics. For enrollees age 65 years and older, this includes Elderly Waiver (EW) services accessed through the tribe. If a doctor or other provider in a tribal or IHS clinic refers you to a provider in our network, we will not require you to see your health plan primary care provider prior to the referral.
